Nature's way to fight back!

Accumulated toxins from pollution, genetically-modified foods, pesticides, and chemicals can have a major impact on our health. Fortunately, our ancestors understood how to help detoxify and balance the body.*

100% Pure Calcium Bentonite Clay promotes a deep, and natural, detoxification. Qele is unabsorbable by the body, making it an excellent way to support the body's natural elimination of toxins, impurities, heavy metals, and chemicals while promoting healthy digestion and nutrient absorption.

Qele is GRAS Certified and has a smooth texture that can be added to drinks or food. Use with your Bula Bobble™ Hydration System or mix with KetoFUEL to add a deep detoxifying boost to your BulaFIT Ketogenic Lifestyle.

Directions: Recommended daily serving size is approximately 1 teaspoon. Refrigerate after opening and use within 30 days.
